Our Technical Expertise

Forging (Hot & Cold) | Machining (CNC Turning & Milling) | Turnmill | Broaching
Plating (Approved outsource) | Heat Treatment (Approved outsource) | CNC Centerless Grinding

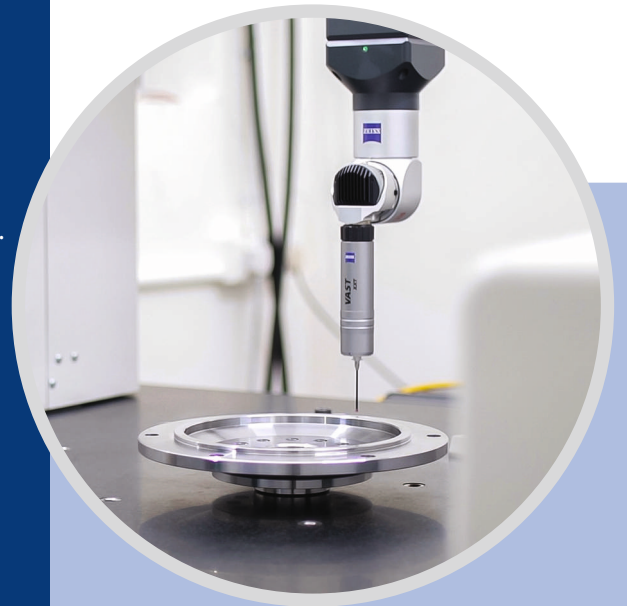

Quality

NSK Automotive was established in the year 2005. It is one of the leading automotive and engineering products suppliers in Chennai. We manufacture engineering parts adhering to the quality criteria of the automotive and non-automotive industries. We are valued as the best in the industry and we can produce with high standards of quality fulfilling the customer needs.

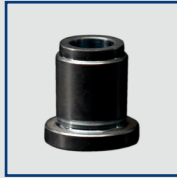

We are accredited as the best in the industry and achieved 100 PPM certification from Hyundai Motor India Limited in the year 2012. This commitment was also reflected to certify NSK Automotive as ISO 9001:2015 as we comply with the requirements of ISO 9001:2015 from BSI in the year 2018.

We can produce automotive and engineering components at the highest level of quality and responsible cost through our efforts and teamwork. Our entire team is responsible for making NSK successful through dedication and hard work.

As we strictly adhere to the quality management system for the machined components we are also certified by IATF 16949:2019.
